**HURRICANE MARIA** IS CONSIDERED THE SECOND MOST CATASTROPHIC HURRICANE TO HIT PUERTO RICO. MANY PEOPLE WERE LEFT HOMELESS AS A RESULT OF THE STRONG WINDS. THE COUNTRY'S ELECTRICITY GRID WAS STRONGLY AFFECTED, THUS LEAVING ALL OF ITS RESIDENTS WITHOUT THE SERVICE A FEW HOURS AFTER THEY STARTED. SIMILARLY, COMMUNICATION NETWORKS WERE PARALYZED THROUGHOUT THE ISLAND; THERE WAS NO WAY OF KNOWING WITH CERTAINTY WHAT WAS HAPPENING.

TRACK OF HURRICANE MARIA

## WHAT TO DO IN CASE OF HURRICANE?

### BEFORE

- PROTECT DOORS AND WINDOWS
- PREPARE FIRST AID KIT
- STORE NON-PERISHABLE FOOD AND WATER FOR SEVERAL DAYS

### DURING

- STAY IN A SAFE PLACE

### AFTER

- VERIFY THE WELFARE OF ALL MEMBERS OF THE FAMILY OR GROUP
- REVIEW DAMAGE TO HOUSING
